**Attention: Rolf Bouman, President & CEO**

Dear Rolf:

**Re: Legal Representation**

Since about 1988, our law firm, Evans MacIsaac MacMillan, has represented you and your land development companies, **Canadian Pioneer Estates Limited, Canec Land Developments Inc., and Kelly Robertson Consulting Limited.**

Recently we have incorporated a fourth company for you which is called **(Ad)venture Canada Publishing Inc.**

As a lawyer in this law firm, I have been acting directly for you and your companies for approximately 5 years, but I have known you personally for more than 16 years.

This law firm has acted on more than 1,000 files on behalf of you and your companies. This is a significant number of files to have with one law firm.

I am pleased to be able to say that, after consulting with our staff and law firm records, none of the files that we acted on involved court cases, litigation or responding to claims made against you or any of your companies. I consider this a true accomplishment and a testament to the integrity of the manner in which you conduct your business. This does not surprise me as I am aware that the other lawyers and law firms that I communicate and work with in Europe and Canada who know you also speak highly of your business practice and professionalism.

---

I think that is also noteworthy to mention that you and your companies have had, and continue to have, a significant impact on the economic, social and cultural development of Nova Scotia and Canada. Without your efforts and long-term business vision it is unlikely that such developments and significant foreign investment would have occurred to the extent that they have. In my opinion, these efforts have contributed significantly to the advancement of European-Canadian relations on many levels.

As for myself and this law firm, I can state that we certainly look forward to a continued long term working relationship with you and your companies.

Yours truly,  
**EVANS MACISAAC MACMILLAN**
